Administrator

As an administrator I want to add a match so that users can order tickets for it.

Acceptance criteria:

- The match should have these fields:
 - Name of home team
 - Logo upload of home team
 - Name of guest team
 - Logo upload of guest team
 - Date and starting time
 - Stadium
 - City
 - Country
 - League
 - Number of seats
 - Price for seat
- After submitting the form, I should be redirected to the page about the match.

As an administrator I want to update a match so that users can see when any changes occur.

As an administrator I want to delete a match so that users do not order tickets for it.

Acceptance criteria:

- A confirmation dialog ask me to type my password
- After confirmation, the match is deleted and users receive refund for their tickets in in-site credits

As an administrator I want to see the count of all users so that I know how many people have used the service.

Acceptance criteria:

- A list with all registered users is shown along with a count

As an administrator I want to see how many users registered the past week/month so that I know whether my service is growing.

Acceptance criteria:

- I am able to filter the list of all users shown by when they registered
 - Past week
 - Past month
- A count of all displayed users is updated

As an administrator I want to see how many active users there are in the past week so that I know whether people have interest in football matches.

As an administrator I want to have different prices for different seats so that I can charge more for front-row seats and less for back-row ones.

Acceptance criteria:

- During the creation of the football match, I can divide the stadium into different sectors
- I can assign prices to each sector

Registered user

As a registered user I want to see a list of all matches so that I can see information about any particular match.

As a registered user I want to receive a notification when a match is updated so that I can rearrange my schedule.

Acceptance criteria:

- The notification should be sent as an email containing:
 - The name of the match
 - What information has changed

As a registered user I want to log into my account so that I can order tickets.

Acceptance criteria:

- Users should log in with
 - Email
 - Password

As a registered user I want to filter between past and upcoming matches.

Acceptance criteria:

- A dropdown with 2 options exists
 - Future matches
 - Past matches
- The page should not refresh when filtering. Use Ajax

As a registered user I want to receive my ticket via email so that I can easily show it at the entrance.

Acceptance criteria:

- After purchase and payment are confirmed, the email system should write a message and attach the ticket as .pdf

As a registered user I want to access my ticket in my profile so that I have a backup in case I do not receive the email.

Acceptance criteria:

- The ticket should be accessed from the list of tickets on my profile page

As a registered user I want to buy a FootballTix yearly pass which gives me a discount on tickets so that I can save money.

Acceptance criteria:

- The pass can be purchased from the Yearly pass page
- The pass should cost \$20
- The pass gives a discount depending on the ticket price
 - To 200 -> 5%
 - To 500 -> 10%
 - Above 500 -> 18%

As a registered user I want to have access to all purchased tickets so that I know which matches I have attended.

Acceptance criteria:

- All tickets should appear in chronological order starting from the most-recent one

As a registered user I want to see how much I have spent so that I can manage my finances better.

Acceptance criteria:

- The amount is calculated based on all past ticket purchases

As a registered user I want to be able to recover my password so that I do not lose my tickets.

Acceptance criteria:

- Forgot password should be on the login form
- Users Write full name and email and an email is sent with a link to change their password

As a registered user I want to log out so that no other person can access my account.

Visitor

As a visitor I want to see only upcoming matches so that I know whether my favorite team is playing.

Acceptance criteria:

- Upcoming matches should be on the landing page

As a visitor I want to register so that I can order a ticket.

Acceptance criteria:

- These field should be present:
 - Full name
 - Email
 - Password
